**City of Adelanto Selects FATHOM™ for End-to-End Services Contract**

**PHOENIX – November 19, 2012** – GWR Global Water Resources Corp. (TSX: GWR) and Global Water Resources, Inc. (“Global Water”) today announced that the City of Adelanto, California (the “City”), has approved the selection of Global Water’s FATHOM™ platform to provide the City with a fully integrated, end-to-end Customer Information System, including utility billing and customer care, Advanced Metering Infrastructure System and Asset Management System. The contract also includes the geospatial FATHOM™ Revenue Assurance Audit, designed to identify potential sources of missing revenue within the existing billing system. The entire offering will be financed through the use of tax-exempt lease purchase finance which allows the City to immediately realize on reduced operating costs for the provision of these essential services.

“Selecting FATHOM™ was a big decision for us,” Mrs. Onyx Jones, the City’s Interim Finance Director confirmed. “It is clear that, as a utility, Global Water understands the increasing demands and expectations of our customers. FATHOM™ will allow us to provide our customers with the tools and the level of service that our customers are demanding. At the same time, FATHOM™ allows us to optimize our operations, minimize increases to our current costs and potentially increase our revenues.”

FATHOM™ will service approximately 7,419 connections in the City of Adelanto. The integrated platform offers the City an opportunity to leverage industry-leading technologies and provides many benefits to the utility and their customers.

“Global Water is delighted to partner with the City of Adelanto to achieve their primary objective: do more with less. By selecting FATHOM™, the City will benefit operationally from reliable, geospatial data, a real-time work order management system, timely, accurate billing, state-of-the-art meter technology, and proactive asset maintenance with historical tracking,” said Mr. Trevor Hill, President & CEO, Global Water FATHOM™. “With FATHOM™, the City can offer their residents a true customer-centric service model that features advanced online and mobile account management and superior customer care support. The combination of utility efficiencies and customer services available with FATHOM™ will allow the City of Adelanto to be a leader among water utilities, while reducing costs and generating revenue.”

**About GWR Global Water Resources Corp. and Global Water**

GWR Global Water Resources Corp. owns an approximate 48.1% interest in Global Water, a leading water resource management and technology company that owns and operates water, wastewater and recycled water utilities, and provides technology-enabled services through its unique platform, FATHOM™ Utility-to-Utility (“U<sub>2</sub>U™”) Solutions. Initially developed by Global Water to support and optimize its own utilities, FATHOM™ OS is a cloud-based geo-spatial integrated suite of utility-to-utility solutions proven to increase utility revenue, decrease operating costs and improve customer service. *FATHOM™ puts water management tools in customers’ hands.*
