CITY OF GALT APPROVES FATHOM™ FOR COMPREHENSIVE AMI SYSTEM AND SERVICES PROJECT

PHOENIX – October 08, 2013 – FATHOM™ and the City of Galt, California (“Galt” or the “City”) today announced Galt City Council approved a 5-year services contract to deploy a turn-key, fixed network Advanced Metering Infrastructure (AMI) system and includes a complex, state mandated meter retrofit initiative for the City’s 7,446 accounts, including more than 3,000 non-meter ready accounts.

In addition to the procurement and installation of the water meters and the AMI system, FATHOM will also deliver the FATHOM Revenue Assurance Audit, the FATHOM U₂You™ online customer portal for account management portal and the FATHOM MDM meter data management software that turns the AMI data into actionable information through advanced analytics, reporting and work order management.

Trevor Hill, Chief Executive Officer of FATHOM, added, “FATHOM was designed specifically to solve the issues cities just like Galt are facing today, to eliminate the risk from complicated infrastructure projects and the escalating costs that accompany a typical implementation while offering evergreen solutions that ensure every utility has access to innovative technologies that save money, time and water. We look forward to guiding the City on this important journey.”

About FATHOM

Developed by a water and wastewater utility, FATHOM is an integrated suite of advanced technologies proven to increase revenue, decrease costs and bring heightened efficiencies to water utilities. Our proven, rapidly deployable, highly scalable, cloud-based, Software as a Service (SaaS) solutions are changing the way utilities acquire, analyze and use data to optimize operations and improve customer service. Through our integrated, geospatial platforms – FATHOM CIS, FATHOM U₂You with FATHOM Mobile, FATHOM MDM and FATHOM AMS – utilities and their customers have the information they need and want at their fingertips. With over 3.5 million meters on FATHOM, there is strength in numbers.
